By the end of second grade, students will:

2.1 Demonstrate knowledge of basic addition and subtraction facts to 18. (Standard 1)

2.2 Demonstrate the ability to add and subtract 2 digit problems with and without renaming. (Standard 1)

2.3 Use addition and subtraction to solve problems. (Standard 6)

2.4 Tell time to the hour, half hour, quarter hour and 5 minute intervals. (Standards 5 and 6)

2.5 Identify coins, count values, and solve problems using addition and subtraction of money. (Standards 5 and 6)

2.6 Recognize, name, build, compare, and sort two- and three- dimensional shapes. (Standard 3)

2.7 Understand how to measure using nonstandard and standard units of length and weight. (Standards 3 and 5)

2.8 Develop and solve problems using concepts of odd and even, greater and less than, ordinal numbers, patterning, estimating and place value. (Standards 1 and 6)
